November 10 Meeting in Nevada “Analyzing Evidence and How to Cite Sources in Genealogical Research”

The November 10 meeting will be held at the Nevada Library Meeting Room, 212 West Walnut, Nevada, MO, beginning at 10 a.m. The program is titled “Analyzing Evidence and How to Cite Sources in Genealogical Research.” The program is open to the public and there is no fee.

2008 Membership Dues

Membership dues for calendar year 2008 can be paid at any time. Please mail your check or bring it to a monthly meeting -- \$10 for an individual or \$15 for 2 family members. Your membership dues help provide additional genealogical resources in our public libraries. We welcome suggestions on resources which would be beneficial to area researchers.

New Vernon County Cemetery Directory

Work continues on the new cemetery directory, with only six cemeteries remaining to be surveyed. It is hoped that volunteers will be able to complete the surveys within the next couple of weeks. Once these last surveys are completed, the data from them will be input into the database. Following this, the final formatting will be done and it will be ready to send to the printer (est. completion date is spring 2008).

Volunteers have been diligently working for four years on this project, and they report that there are numerous changes, additions, and

previously unrecorded pioneer burials will be included in the new directory. It will have more than 46,000 entries and an every-name index.

Watch this newsletter for information on purchasing the new directory.

Best Choice UPC Labels and Summer Fresh Grocery Receipts

Collecting labels and receipts continues year round. Save and bring them to any monthly meeting – they will be redeemed for cash.

Tri-County Genealogy Website www.rootsweb.com/~motcogs/

Numerous new pages are being planned for the Society’s website. Researchers are encouraged to review the site in preparation for a research visit or prior to requesting paid research.

If you have information to add to the website or suggestions on additional information which would be helpful to researchers, please email TriCountyGenealogy@starband.net

Who are YOU Researching?

Members are invited to submit their name and contact information (email and/or mailing address) and surnames with location and years that they are researching for publication in the newsletter. Other members may be researching the same family, and this will enable members to contact each other and share information if they desire to do so.

Please bring your information to any meeting or email to the Society to be included here next month.

Vernon County 1855-1900 Circuit Court Records Project

Volunteers continue their weekly workshops at the Nevada Library to process court case files. More than 27 of the 104 boxes have been completed in this phase of verifying the term of court for each case. There are still some schedule openings for additional volunteers if you can help – contact the society to get started.

The next phase of this project will be to arrange all of the case files by court term and then box and number them. Once this is done, an extensive index will be typed and made available to researchers.

The files will then be microfilmed, and the microfilm will be available to researchers at the Nevada Library Genealogy Department.

Cedar County Probate Files Project

The Cedar Co. Probate Project continues with the workday being Thursdays from 10 a.m.–3:00 p.m. in the County Commission Room of the Courthouse at Stockton. File packets are being opened, cleaned, flattened, put into folders, and labeled. If you can help with this project on Thursdays, please come to the Stockton courthouse.

“The Photo Detective”

The October 12, 2007 issue of The Wall Street Journal had a very interesting article by Alexandra Alter on clues for dating old photographs. The article explains how Maureen Taylor has used photo details such as the size and shape of a touring car’s headlights, to determine the date a photo was taken.

Two Internet addresses have been provided here in hopes that you can access this very interesting article online or look for it at the Library. We all have old photographs

that we might be able to identify if we could pinpoint the year the photo was taken. Read this article and learn some of the clues which can be used to date photos. (Thanks to Jerry G. for sharing this information with us.)

Burial Areas/Stones Continue to be Found

Society members checked out the report of a gravestone in the backyard of a house south of Walker. The small stone appears to be that of Samuel S. Davis who lived near Schell City and died in 1889. His probate was filed April

1889. Research will be conducted to try to determine his original burial location; it is thought that the burial would have been near Schell City where he and his family lived.
